Sec. 8, T. 8 N., R. 7 W.,
Box Elder County, Utah.

Gentlemen:

Insofar as this office is concerned, approval to drill the above mentioned wells is hereby granted in accordance with the Order in Cause No. 120-1, on February 17, 1966. However, approval is conditional upon receiving a more detailed footage location other than the submitted well location plat.

We are sorry to put you to this inconvenience but, this office is unable to accurately scale the well sites due to the distortion of the plat in the reproduction process. For your convenience it is recommended that you contact Hansen and Associates and ask them to furnish this Commission with the footage location of the wells in reference to the NE Corner of the SE $\frac{1}{4}$ of Section 8, Township 8 N., Range 7 W. As a matter of expedience it is further recommended that not only the above referred to tests be described, but all thirty-five proposed drilling locations which are shown on the plat.

Should you determine that it will be necessary to plug and abandon these wells, you are hereby requested to immediately notify the following:

This approval terminates within 90 days if the wells have not been spudded-in within said period.

Enclosed please find Form OGCC-8-X, which is to be completed if water sands (aquifers) are encountered while drilling, particularly accessible near surface water sands. Your cooperation with respect to completing this form will be greatly appreciated.

Very truly yours,

Dear Mr. King,

Your attention is directed to our letter of February 25, 1966.
Approval to drill the above mentioned wells was conditional upon a
surveyor's plat being furnished for each of said wells.

It would be appreciated if you would furnish this office with the
plats as soon as possible.

Very truly yours,

For the months of March, April, May,
June, July, August, September, October,
November and December, 1966.

Gentlemen:

Our records indicate that you have not filed a Monthly Report of Operations for the above mentioned month (s), for the subject well. Rule C-22(1), General Rules and Regulations and Rules of Practice and Procedure, Utah State Oil and Gas Conservation Commission, requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGCC-1b (U. S. Geological Survey Form 9-331, "Sundry Notices and Reports on Wells"), or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your immediate attention is required in this matter.

Very truly yours,

Gentlemen:

Our records indicate that you have not filed a Monthly Report of Operations for the month(s) mentioned above for the subject well. Rule C-22 (1), General Rules and Regulations and Rules of Practice and Procedure, Utah State Division of Oil and Gas Conservation requires that said reports be filed on or before the sixteenth (16) day of the succeeding month. This report may be filed on Form OGC-1b, (U. S. Geological Survey 9-331, "Sundry Notices and Reports on Wells"), or on company forms containing substantially the same information. We are enclosing forms for your convenience.

Your cooperation with respect to this request is greatly appreciated.

Very truly yours,

Dear Mr. Firth:

Please refer to your 7/28/86 letter pertaining to the Monthly Oil
& Gas Production & Disposition Reports.

I know longer have any oil leases; Lease was cancelled 1/2/85.

I am not behind in my reports. Have not been behind in my reports.

I have no delinquent reports.

Please look into this matter.

Re: Wells listed under N0000/Unknown Operator on Fee and State leases.

All wells previously listed under N0000/Unknown Operator on Fee and State leases, have been changed back to the last known operator, based on information obtained from the well files. Wells that are currently in Shut-In, OPS, or TA status have been assigned Entity numbers. Bond availability has been reviewed for wells on Fee land. Operator's with unplugged wells will now show up on the monthly turnaround report under the last known operator, except for those wells with TA or OPS status. However, due to the fact that the majority of these operators no longer exist, and the fact that the wells have been in unknown operator status for several years, the operator's addresses have been X'd out to prevent mailing of the monthly report.

My intentions are to follow-up with St. Lands/Ed Bonner on lease cancellations, assignments & bonding for wells drilled on State leases.

The Tax Commission will be notified of these changes, and asked to continue to hold off on any action until DOGM advises otherwise.

I hope this change assists in determining future action regarding the unplugged wells within the state. I have attached information for your review. Please advise me of any additional steps to take.

Jan-Feb/1996 The surface casing, production casing and any elements inside the surface casing were cut off at least several feet below the water-clay boundary and a circular steel plate was welded to the open casing. A cardboard tube was placed over the casing and cemented so that several inches of cement surround the casing and eight inches covers the top of the plate. The location was surveyed and is marked on the attached map.
